## ADVERTISEMENTS.

TO ENGINEERS, BUILDERS, PLUMBERS, &c.

**RAIN-WATER PIPES,** Heads, Shoes, and Elbows, half-round and O G Gutters, Bash Weights, Ridging Bars, Sink Gratings, Air Bricks, close and open Coal Plates, Scrapers, Tile Lights, Balcony Panels, narrow and ivory wheels, &c.

CAST and WROUGHT IRON WORK for STABLE FITTINGS, viz.—Mangers, Hay racks, Rings, Cills, Stable Traps, Gratings, &c.

GAS and WATER-PIPES, bends, branches, Tee pieces, syphons, and lamp columns; also hot-water pipes for heating buildings and hot-houses, and PLUNGE PIPES, with all the usual connections. A large stock of the above CASTINGS at very low prices, at JOSEPH'S, Iron Bridge Wharf, No. 6, Bankside, Southwark.

**PAPER-HANGINGS by MACHINE and BLOCK.**—The trade supplied in town and country, with machine goods, from first-rate new designs, at the lowest prices they have ever been sold in this country; and block goods, for style and quality, not to be surpassed by any house in England. All the patterns are registered, and can only be supplied by HENNELL and CROSBY, Queen-street, Southwark bridge-road. Cheapest house in London for oak, marbles, and panel decorations. A set of patterns, 5s., to be deducted off an order of 5l.—Terms, cash.

FRENCH PAPER-HANGINGS MADE IN ENGLAND.

**LAMARKS and Co.,** in order to go with the times, have, in addition to their usual large and magnificent Stock of French Papers, printed some very choice FRENCH DESIGNS, a stock of which is now ready, at prices varying from 6d. to 15d. per piece of twelve yards long, including some new and choice specimens of marbles, oaks, and granites, all made by improved machinery, on paper specially made for the purpose. Lining paper and rannets at mill prices.—Warehouse, 20, Princes-street, Leicester-square.

PAPER-HANGINGS, MANUFACTURED UNDER HER MAJESTY'S ROYAL LETTERS PATENT.

**E. T. ARCHER,** 451, Oxford-street, solicits an inspection of the various DECORATIVE PAPERS, fixed up in panels on the walls of the extensive range of apartments, built expressly for that purpose; where also is kept an extensive stock of every variety of Paper-Hangings, at the lowest possible price and of the best manufacture, in English and French Designs, by the best Artists; and where may be had a large assortment of French and other Continental Paper-hangings always on hand.—Builders and large Consumers are particularly invited to the above.—451, Oxford-street.

**SNOXELL'S PATENT SAFETY REVOLVING WOOD SHUTTERS,** Manufactory, 28, REGENT-STREET and 19, CHANCERY-LANE. Patent sealed on the 21 day of February, 1846, for Further Improvements in Revolving Shutters of WOOD and IRON, consisting of Six Methods of Raising and Lowering Shutters, without Machinery, and Two for Hinging and Securing the Edges of Wood Leaths with Iron.—The Patentee having fitted up some hundreds, will feel pleased in forwarding the Testimonials of Architects, Principals of large Establishments, and others, having them now in use, which fully guarantees the Patentee in stating they are beyond dispute superior to any other Revolving Shutter for durability, security, and simplicity, without the use of cog wheel worms and screw gear, or any other complicated machinery employed by other makers.

**BUNNETT and Co.,** ENGINEERS, Patentees of REVOLVING IRON AND WOOD SAFETY SHUTTERS, and of ORNAMENTAL METALLIC SASH BARS, MOULDINGS, &c. IN BRASS, COPPER, ZINC, &c. FOR SHOP-FRONTS, SKYLIGHTS, &c.

Shop-fronts completely fitted and fixed in a superior style, either plain or ornamental, also glazed with best plate glass. Turned moulded stallboards handsomely engraved. Metal works and machinery of all kinds in connection with banking-houses, shops, warehouses, &c. &c.

B. and Co. challenge competition as to either quality or price. Designs furnished and estimates given.

IMPROVED PATENT BENCH AND FLOORING CRAMPS FOR BUILDERS.

BOLE LICENCEES FOR MARVIN and MOORE'S PATENT DIAGONAL GRATINGS.

Office of the Patentees, 28, Leonard-street, London; and at the Works, Deptford, Kent.

By Her Majesty's Royal Letters Patent.

**PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOOSE SPINDLES.**

HART and SONS beg to invite the attention of architects, builders, and others, to their Door Furniture, mounted for PITT'S PATENTED SPINDLES. The knobs are stronger, more durable, and more elegant in form, than those in ordinary use, as the spindles, being loose, do not require the objectionable side screws. They are more readily fixed, are suitable for every description of lock now in use, and, as they adjust themselves to doors of different thicknesses without alterations, are particularly adapted for the country, for exportation. They are made in each every style of decoration; in China, crystal, amber, and opal glass, buffalo, horn, ivory, ebony, brass, &c., on suite with finger plates, bell-pulls, levers, &c.—May be obtained of all Ironmongers; or of the proprietors and sole manufacturers, HART and SONS, Wholesale Ironmongers, 58, 64, and 66, Wych-street, Strand, London.

N.B. PITT'S PATENTED SPINDLE, being the only one that does not require a screw in the side of the knob or mounting, the use of any look furniture without such side screws would be an infringement of the patent.

**BRITISH MUTUAL LIFE OFFICE.**—The Public are invited to examine for themselves the advantages gained for Assurers by the plan on which policies are granted by this Office.—Apply to CHARLES JAMES THICKE, Secretary, 17, New Bridge-street, Blackfriars.

**ARCHITECTS', BUILDERS', and** GENERAL FIRE and LIFE INSURANCE COMPANY, 69, Lombard-street, London.

CHAIRMAN, SYDNEY SMIRKE, Esq., R.A.

TRUSTEES.

| | |
|---|---|
| T. L. Donaldson, Esq. | A. Salvin, Esq., F.S.A. |
| S. Grimaldi, Esq. | G. Smith, Esq., F.S.A. |

The rates for both Fire and Life Insurances are as low as can with safety be taken. Those for Life Insurance may be paid either yearly, half-yearly, or quarterly; one-half the annual premium may be left unpaid for seven years, or one-third to the end of life. The interest may be insured at the smallest present outlay.

Prospectuses, forms of proposals, &c., may be had at the Office, 69, Lombard-street, or of the agents.

JOHN REDDISH, Manager.

**THE LONDON INDISPUTABLE LIFE POLICY COMPANY**—Incorporated by Act of Parliament on the principal of Mutual Life Assurance, No. 31, Lombard-street, London.

TRUSTEES.

John Campbell Renton, Esq., M.P. | Richard Spooner, Esq., M.P.
Richard Malins, Esq., Q.C. | James Fuller Maitor, Esq.
William Wilberforce, Esq.

This Company is prohibited by their deed of constitution, duly registered in terms of the Act, from disputing a policy upon any ground whatever. All questions as to age, health, habits, and other matters deserving of inquiry prior to the contract being entered into, are held as finally settled when the assured receives his policy.

Copies of the annual report, and of the annual meetings of the assured, prospectuses and schedules may be obtained by personal or written application to the Head-office, or any of the Agents.

ALEXANDER ROBERTSON, Manager.

**CHEAP ORNAMENTAL GLASS.**—I beg to inform my friends and the public, that I have now completed a new ENGINE, and, owing to the facility with which I can execute orders, I am enabled to reduce my former prices somewhat. The prices are now from ONE SHILLING PER FOOT SUP., and orders from SIXPENCE PER FOOT RUN. A large quantity of the cheapest patterns always in stock. Enamelling and painted work on the most moderate terms.—CHARLES LONG, No. 1, King-street, Baker-street, Portman-square.—Cash only.

**E. and W. H. JACKSON** beg to call the attention of Builders and the trade to the reduced prices of their PATENT PLATE GLASS, which, from its cheapness, is now superseding crown in all respectable dwelling-houses. BRITISH and ROUGH PLATE, CROWN, SHEET, STAINED, and ORNAMENTAL GLASS, supplied of the best manufacture, and at the lowest terms. List of prices, estimates, and every information can be had on application at their warehouse, 315, Oxford-street.

**PLATE GLASS.—THOS. MILLINGTON** begs to inform the trade that he has now ready for sale, a large quantity of BRITISH PLATE GLASS, which he can offer at the following low prices:—In sizes, under 1 foot super, 1s. 8d.; under 1 ft. 6 in., 1s. 9d.; under 2 ft., 1s. 9d.; and under 3 ft., 2s. per ft. super. Rough Plate, 10 various substances, from 16th in upwards. Observe the address—C, BISHOPSGATE-STREET WITHOUT.

**THE UNION PLATE GLASS COMPANY** beg to call the attention of architects, surveyors, builders, large consumers, and the trade generally, to the quality, colour, and substance of their highly finished glass, and as the discounts vary according to size, they prefer giving a special estimate for each quantity required. To encourage the use of Plate Glass for glazing purposes, the price considerably reduced, which will, for its durability and appearance, insure the preference to any other description.

ROUGH PLATE GLASS supplied for skylights, warehouses, workshops, and flooring, 3-8ths, 1/2, and 1 inch thick.

London Warehouse, 19, Hatton-garden, Holborn.

H. CHRISTIE, Agent.

REGISTERED

**SOLID AXLE SASH PULLEY.**—This pulley, after having been submitted to the most severe test, is allowed to be superior to every other made for strength and durability. It is fixed with the same facility as the common axle pulley, and comes equally low in price. May be had from any of the Birmingham or Wolverhampton factors. The Crane Foundry Company, Wolverhampton, Proprietors and Sole Manufacturers.—No. 0 is all iron; No. 2, brass front and wheel with iron axle; No. 10, brass front and wheel with brass axle.

**CHAS. WM. WATERLOW,** MANUFACTURER

of Sashes and Frames, and Joiner to the Trade, 181, Bunhill-row, Finsbury-square. Well-seasoned materials, superior workmanship, lowest prices.—Upwards of 60 D. HS, and a large variety of Sashes and Frames, always on sale. Glazed goods securely packed for the country. Steam-dried Mouldings in any quantity.—N.B. This Establishment is worth the notice of all engaged in building.

LUCHEADS

**PERFORATED VENTILATING GLASS** is the most scientific and useful medium for ventilation.

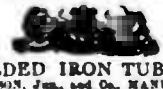
It is cheap, durable, and cannot become deranged. It does not occasion draught, nor obstruct light. To be had of JOSIAH BLACKBURN, Ventilation Office, 309, strand (entrance in Southampton-street), where all other useful appliances for ventilation may be seen in operation, including Arnott's valves, silk valves, Ballitt's self-cleaning ventilators, Oliver's ventilation for roofs, and many others.

**HURWOOD'S PATENT APPARATUS** for MOVING and FASTENING WINDOWS, &c.

GENERAL DESCRIPTION.—This invention recommends itself in all its applications by its simplicity, efficiency, and certainty of action, and entirely dispenses with all pulleys, weights, cords, springs, mortises, fastenings, &c. A principal feature in the invention is the application of the screw, or worm working into a wheel or rack, as a primary mover. The apparatus moves with ease and certainty, is very durable, not likely to be out of order; is perfectly secure in every position, and is applicable to conservatories, French casements, folding shutters, stables, ventilators, skylights, ship scuttles, deck and mess lights, and to all descriptions of windows, and is particularly adapted to public buildings, where security is an important object, as in lunatic asylums.

Further particulars may be had upon application to the Patentee, and also the terms upon which licenses are granted.

*.* Illustrative Catalogues may also be obtained from the Patentee, Ipswich, by inclosing twelve stamps, to cover postage.



**LAP WELDED IRON TUBES.—W. H.** RICHARDSON, Jun., and Co. MANUFACTURERS of every description of WROUGHT IRON TUBES for Locomotive and Marine Boilers, Gas, Steam, and other purposes. PATENT TUBE WORKS, DARLASTON STAFFORDSHIRE.

**W. ELLIOTT and SONS,** Opticians, &c., beg to give notice that they have REMOVED from 88, Holborn, to 36, St. Strand, London.

**TO BUILDERS and CONTRACTORS.**—To be SOLD, a bargain, a lot of plain CAST IRON COLUMNS, 14 feet long, 11 inches diameter, landed in London. The above are considered excellent, but not being required for their original purpose, will be sold considerably under cost price.—Apply to Mr. SWAN, Metal Broker, Pinners'-hall, Old Broad-street.

STEAM ENGINES.

**JOSEPH WOODS and CO.** are instructed to offer Three new 10-horse power HIGH PRESSURE ENGINES, on the horizontal principle, with boilers and steam complete. They will be sold either together or separately, and at a low price.—Orders to view in London, and further particulars, may be had on application at 3, Berner-yard Chambers, Bucklersbury, London.

**ROMAN CEMENT,** made according to the specification of Parker's Patent, may be had genuine of J. M. BLANFIELD (late Wyatt, Parker, and Co.), Waterloo Dock Wharf, Commercial-road, Lambeth, No. 1, Ironmaster Wharf, Paddington, and at the Manufactory, Mill Wall, Poplar. Also Plaster, Mastic, Terras, Brooks, Tiles, &c.

VEINED AND SICILIAN MARBLE in Scantlings and Slabs of the first quality, just imported.

**PARIAN CEMENT,** for internal stucco, instead of common plastering, may be painted and papered within twenty hours of its application to the bare walls, and by the use of which, rooms may be rendered habitable before the material commonly employed would begin to dry. It is worked without the slightest difficulty, the labour being easier and less expensive than with any other stucco whatever. A finer quality is also prepared for ornamental plastering, for encaustic painting, &c. &c.—Specimens of which may be seen at the works of the Patentees, CHAS. FRANCIS and SONS, Nine Elms, London.

**KEENE'S PATENT MARBLE CEMENT** forms an economical hard and indestructible stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland or other stone dust.

It is a cheap and efficient substitute in place of wood for skirtings, architraves, and other mouldings, in its application for which purposes it abates the progress of fire and the attacks of vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Basil-street, Liverpool.

**PORTLAND CEMENT,** as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement but has the advantage over that material of chiefly resisting frost; and when used as a stucco it does not engender efflorescence, or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries four to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. The superior cementing property, combined with its compact, hydraulic properties, point it out as the finest material for building and embankment walls, the lining of reservoirs, cisterns, and basins, and for all those purposes where strength and a perfect resistance to water are required.

Manufacturers, J. B. WHITE and SON, Millbank-street, Westminster, and Basil-street, Liverpool.

**PORTLAND CEMENT,** solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee, Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 238, page 69; and page Nos. 284 and 285, pages 343 and 351 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved by upwards of twenty years in the Thames to resist the action of water; it is stronger in its constituent qualities, harder, and more durable than any other description of Cement; it does not vegetate, crystalize, or burn, grows; nor is it affected by any atmospheric influence whatever (the ultimate resulting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition, orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also by their Agent at the Depôt, 1, Black Horse, Liverpool.

**MARTIN'S PATENT FIRE-PROOF and** ORNAMENTAL CEMENT—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer the above valuable Cement at a considerably reduced price. It has now been before the public so many years, and has obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater strength of further which a given quantity will cover, and the small amount of labour required in working it, a saving of 25 in 20 per cent. is effected as compared with other cements for internal use. Specimens may be seen for beauty, hardness, and applicability to all plain and ornamental purposes, may be seen at the Cement Depôt, 1, Black Horse, Liverpool, and the general supply of the quantity obtained of the Patentees, Messrs. STEVENS and SON, at their Plaster and Cement Works, 186, Drury-lane, London.—Agent for Liverpool.

Mr. GEORGE NEWTON, No. 6, Lawton-street, Bedford-street.

**JOHN'S and Co. PATENT STUCCO CEMENT and PAINT.**—GREAT REDUCTION of PRICE.—The Patentees beg to inform the trade and the public generally, that in order to induce a more extended adoption of these excellent materials, and to bring them into direct competition with the inferior articles in common use, they have determined to reduce the price nearly 25 per cent., confidently trusting to a practically advantageous result. These materials, for their beauty, durability, imperviousness, perfect resistance to frost or heat, and great cheapness, fully justify the confidence reposed in them, as shown by numerous testimonials. For INTERIOR DECORATION they cannot be surpassed, being a suitable repository, having no caustic qualities, it may be painted on or papered within a few days after its application, and a new house may thus be rendered habitable without any delay. It never blisters, cracks, or peels, is very soon rendered as hard as marble by dressing with a brush and water.—Prospectuses, specimens, and every information connected with its use, price &c., may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 33, Basil-yard, Upper Thames-street.

TO PLASTERERS, BUILDERS, &c.

**JOHN'S and Co. PATENT PERMANENT STUCCO WASH.**—The attention of the trade is requested to this permanent wash, which cannot be equalled in its properties of beauty and durability for exterior stucco or brick, and being a non-absorbent, is admirably adapted for interior surfaces. For railway stations, manufactories, asylums, hospitals, barracks, stables, &c., it is unrivalled. As it will not wash off, may be tinted to any colour, and 1 cwt. will cover 300 yards.—Price 10s. per cwt. Sole agent, PHILIP HARE, 33, Basil-yard, Upper Thames-street.

TO THE BUILDING PUBLIC.

**FIRST-RATE ORNAMENTS** in PORTLAND, ROMAN and other CEMENTS and PLASTER of PARIS, at remarkable prices, consisting of Vases, Balusters, Capitals, performed Panellings, Cantilevers, Brackets, Trusses, Window Heads, Pierced Panels, Mouldings, Trusses, Dentils, and other Chimney Shafts, Rustic, Bed-mouldings, Patterns, &c., &c. Centre Flowers from 10 feet diameter downwards. An assortment of Shop-front Trusses always ready for fixing.—HERBERT and SON, Modellers, &c., 63, Parker-street, Drury-lane.

**ARCHITECTURAL ORNAMENTS.**—A First-rate Composition ORNAMENTS and PROJECTING LETTERS are manufactured at the lowest possible remunerative prices by JOHN CHILLINGWORTH, Architectural Ornamentist, 103, Great Dover-street, Borough, Southwark.

Ceiling Flowers, 6d. per inch up to 24 inches. Counter Trusses, from 3s. to 25s. per ounce: Projecting Letters, from 11 to 24 per inch. Stock of well-executed Cement Trusses always on hand, ready for fixing.

A large assortment of patterns of the general routine of ornament on hand for inspection, too numerous to be mentioned in this advertisement.
